

Welcome to TBI. We'd like to tell you some of the finer points of our operation. We are located in West Central Illinois in Fulton, McDonough, and Schuyler counties on privately owned farms managed for trophy whitetail hunting. We only hunt 3 weeks during the rut, which is why we can achieve annual success rates from 25% to 60%. We now manage around 8,000 acres, which compliments our trophy management program even more.

The woods of Illinois are small with a lot of long fingers and ravines, which is ideal for bowhunting. The food plots consist of corn, alfalfa, soybean, clover, and also some acorns. The deer are easy to pattern, which adds to our success rates.

There is a recipe for killing Boone and Crockett-sized whitetail bucks and the first part of that recipe is you have to go where they are! While hunting with us, you have a good chance of seeing the biggest buck of your life.

So come hunt with us in Illinois and enjoy an experience of a lifetime!

Please call if you have any questions, or need more details.

Good hunting!

Troy, Bill
